

VGE Pro 3S & 3L

Benefits 3S & 3L

The units are equipped with a complete 316L stainless steel housing and a 3/4" male threaded connection. Both of the units are equipped with the VGE Pro Control Timer with an integrated high frequency transformer. The built in timer allows you to keep count for the amount of hours the lamp has been used to indicate the time of replacement.

Both of the units are designed for small-scale applications and can be used in various markets such as domestic drinkwater treatment, horticulture and industry.
